Report on: Awareness Rally against Drugs

Date of Rally: 01st December 2021

Semester: 3rd, 5th and 7th

Department: All Departments

Number of students participated: 55

Name of Faculty Accompanying: Er. Satvir Singh

On 01st December, 2021, the ECO Club of Baba Farid College of Engineering & Technology held a rally to raise awareness against drug abuse. The Principal, who also conducted the flag-off, officially inaugurated the program. Students walked from the college campus to the rally's destination in the village of Baladewala. Students have created posters and picket cards about the negative impacts of drug abuse. They raised awareness among the campus's pupils.

The event aimed to raise awareness of the dangers of drug abuse and its harm to one's health, especially among young people. In addition, the rally encouraged extracurricular social events that caught the interest of young people. It is impossible to eradicate the use of drugs with a single demonstration or campaign. So the only thing we can do is start this cause. The youth must be able to distinguish between right and wrong. One is attempting to explain the differences to you through this rally. The final decision rests with the individual, but as responsible citizens who care about the future, this is the least we can do. The campaign got a massive response from the crowd and students participated further in spreading the message about the disadvantages of drug use and abuse.

BABA FARID COLLEGE OF ENGG. & TECHNOLOGY

Awareness Rally on against drugs by Students of BFCET

Report on: Seminar on "How to Overcome Fear of Facing New Challenges in Life"

Date of event: 25.11.2021.

Organized by: Department of EE

Name of Expert: Prof. B. D Sharma, Dy. Director, Career Guidance & Counseling, BFGI

Baba Farid College of Engineering and Technology continuously adopts innovative ways to help students continue their regular studies and connect with experts from various fields. BFGI is bringing experts from different fields to interact with students offline. The Department of Electrical Engineering, Baba Farid College of Engineering & Technology, Bathinda, organized a seminar on "How to Overcome Fear of Facing New Challenges in Life". Prof. B. D Sharma, Dy. Director, Career Guidance & Counseling, BFGI, delivered a seminar.

He discussed with the students about fear and anxiety. He said, fear and anxiety can last for a short time and then pass, but they can also last much longer and you can get stuck with them. In some cases, they can take over your life, affecting your ability to eat, sleep, concentrate, travel, enjoy life, or even leave the house or go to work or school. This can hold you back from doing things you want or need to do, affecting your health". He also said that some people become overwhelmed by fear and want to avoid situations that might make them frightened or anxious. It can be hard to break this cycle, but there are many ways to do it. You can learn to feel less fearful and to cope with fear so that it doesn't stop you from living. After that, he explains the various strategies to remove fear from the mind and heart. At last, the student raised the quires & all quires was answered by an expert. About 30 students of EE's first year attended the seminar.

Then Er. Harsimran Singh expressed his gratitude to Prof. B. D. Sharma for providing the participants an enriching knowledge. Also, he expressed his thanks to Dr. Jyoti Bansal (Principal, BFCET) for supporting such extra events. Chairman BFGI, Dr. Gurmeet Singh Dhaliwal, always inspired and encouraged such activities at the Institution level for grooming of the students.

Report on: Webinar on "Social Commitment-as a way of life"

Date of Activity: 1st November, 2021

Organised by: Harmony Club

Expert: Mrs. Jyoti Chauhan, Educator and Motivational Speaker, New Delhi

Social commitment is an ethical framework suggesting that an individual must work and cooperate with others and organizations to benefit the community. We want our pupils to develop into responsible citizens of the world. We consider it essential that our students understand the importance of helping others. By supporting others, they learn to recognize their strengths and see the world through the eyes of others. Not least, their commitment strengthens their sense of belonging to the school community. Harmony Club of the Department of Mechanical Engineering of Baba Farid College of Engineering and Technology, Bathinda, organized a webinar on "**Social Commitment-as a way of life**" dated 1st November, 2021 under the leadership of Hon'ble Chairman, Dr. Gurmeet Singh Dhaliwal. The event was attended by renowned and esteemed speaker Ms. Jyoti Chauhan, Educator, Motivational Speaker in New Delhi. She said that commitment is a promise to do something desirable and social commitment is a moral obligation in favor and valuable to society. It's as essential as education. She said that as a student, your little efforts could be counted. Students' little participation in solving social problems can promote personal and collective identity. We advised our children to consider their tasks while going to college/hostels. It means that, on one side, we are ultimately cultivating selfishness, not thinking beyond ourselves. She shared that it is a time for development and change. Youth plays a vital role in the development of our society and country. So, bring social reforms and improvement in the country and society. You have the potential and enthusiasm. She said to the students that their participation in solving the social problem has the power to promote personal and collective identity. So, we all have social responsibilities, not only the government or the cooperative world. Please take responsibility for your tasks/actions and ensure that it does not harm society and the environment. She advised the students to do just their actions by checking out their effects on society. She ended her talk with the message always to do the things which lead the smile on other's faces and always feel energetic. About 65 students of B. Tech 1st and 2nd year and 10 faculty and staff members of Baba Farid College of Engineering and Technology

Report on: Workshop on Art of Living

Date of Activity: 15th September 2021

Expert: Dr. Prem Chhabra (Moderator, Art of Living)

Brief Report:

Baba Farid College of Engineering & Technology, Bathinda, organised a workshop on "**Art of living**" for newly admitted students of Engineering Batch 2021 on 15th September. Dr. Prem Chhabra (Moderator, Art of Living) conducted the program. The prime motive of this program is to motivate students to Yoga. Few minutes of Yoga during the day can be a great way to get rid of stress that accumulates daily, in both, body and the mind. Yoga postures, Pranayama, and meditation are effective techniques for releasing stress.

Dr. Jyoti Bansal, Principal BFCET, welcomed all renowned guests and dignitaries during the "Art of Living" program. Dr. Prem Chhabra shared his valuable knowledge with students as they are going to start a new journey. He conducted yoga sessions with great dedication. The teachers participated with total interest, enthusiasm and eagerness.

Dr. Prem mentioned that our hands and palms have all the points to treat all diseases. By pressing these points, you can get relief from various diseases. Tali yoga is the way to go. The tradition of clapping while singing or Chanting Bhajans is ancient. Clapping expresses happiness and keeps you healthy. For clapping, we have to hit both our palms with each other. By doing this, all the points in our hands are activated, and any ailment is gradually improved.

Further, Dr. Prem explained that it incorporates breathing exercises, meditation and poses designed to encourage relaxation and reduce stress. Practicing Yoga has many benefits for both mental and physical health, though not all of these benefits have been backed by science. Some styles of Yoga, such as Ashtanga and power yoga, are very physical. Practicing one of these styles will help you improve muscle tone. But even less vigorous styles of Yoga, such as Iyengar or hatha, can provide strength and endurance benefits.

Dr. Prem described that many poses, such as downward dog, upward dog, and the plank pose, build upper-body strength. The standing poses, especially if you hold them for several long breaths, build strength in your hamstrings, quadriceps, and abs. Poses that strengthen the lower back include the

upward dog and the chair pose. Nearly all poses build core strength in the deep abdominal muscles when done right. Most standing and sitting poses develop core strength since you need your core muscles to support and maintain each pose. A stronger core makes you more likely to sit and stand "tall" Yoga also helps your body's awareness. That helps you notice more quickly if you're slouching or slumping, so you can adjust your posture.

The session concluded with an interactive session between the instructor and the teachers in which the teachers' queries were addressed satisfactorily. The session was very refreshing, reviving, and relaxing.

Dr. Kanwaljeet Kaur, presented a vote of thanks to our esteemed guests of the day. Dr. Gurmeet Singh Dhaliwal appreciated the efforts and congratulated to organizing team.

Students were doing practices of yoga

Dr. Prem was teaching the yoga poses to all the members of BFCET

Reports-2020-21

Report on: Seminar on "Cultural Heritage- A Great Necessity"

Date of Activity: 12th June, 2021

Organised by: Harmony Club

Expert: Mrs. Amritpal Kaur, Educator and Motivational Speaker, New Delhi

Harmony Club of the Department of Mechanical Engineering of Baba Farid College of Engineering and Technology, Bathinda, organized a webinar on "**Cultural Heritage- a Great Necessity**" dated 12th June, 2021 under the leadership of Hon'ble Chairman, Dr. Gurmeet Singh Dhaliwal. The event was consented to by renowned and esteemed speaker Mrs. Amritpal Kaur Sran, Coordinator of activities, BFGI. Mrs. Amritpal Kaur shared her views about Cultural Heritage. She said India has a vibrant culture and vast diversity. Therefore, cultural heritage has become a great necessity of today, it is essential to **preserve our cultural heritage to maintain our identity** as a nation. The value of cultural heritage isn't in cultural manifestation itself. But the wealth of experience and skills passed down from generation to generation. Cultural preservation is a complex subject. It entails a careful balance of several elements.

On the one hand, we want to support others who seem in a worse position than us. But we must be aware of how our acts weaken a culture's identity. She shared that Cultural heritage includes structures, artwork, and other significant societal objects. It also entails intangible elements such as folklore, language, knowledge, customs, and beliefs. A group's cultural heritage is different, precious, and irreplaceable. Preserving culture for future generations now falls to the current youth.

She said that the younger generation must preserve the identity of those who came before them. Also, they need to follow the same practices and manners. So that they prevent any change in the cultural heritage during their lifetime. Keeping our history alive improves our environment. It is commonly accepted that preserving heritage sites benefit the world and is ecologically responsible for preserving older commercial and residential structures. Historic preservation is a form of residential development. It results in valuable and appealing buildings on already developed land.

Heritage preservation lessens dependency on new materials, polluting construction materials, and energy-intensive manufacturing. Awnings, overhangs, and shutters are all designed to optimize natural light to save energy.

Especially in the previous 70, travel has become more accessible. We live in a globalization era. Where visiting foreign countries is now regarded as an eye-opening opportunity. Traveling worldwide, meeting new people, and immersing oneself in a diverse culture are easier.

Cross-cultural marriages and moving abroad are becoming more popular. In certain families, when two people from different backgrounds marry. One culture becomes more dominant, risking cultural preservation.

But this isn't how things used to be. Rivers, jungles, forests, and oceans are used to keep different communities apart. And they rarely interacted.

Foreign cultures learn from us, and we learn from them. It's a never-ending exchange of ideas and micro-influences. That has existed since the dawn of human life on Earth.

We lose the importance of having so many diverse opinions and experiences needed to learn from. We moved into a world where people and cultures are becoming more homogeneous.

She motivated the students to preserve and promote the good values of our culture. All the students interacted in the session.

About 97 B.Tech 1st and 2nd-year students and 06 faculty and staff members of Baba Farid College of Engineering and Technology attended this webinar. Dr. Kanwaljeet Kaur moderated the event. A vote of thanks was given by Er. Kovid Sharma. He thanked the speaker Mrs. Amritpal Kaur for sparing her valuable time and for such an excellent talk. He also thanked all faculty members and students. In the end, he thanked Principal Dr. Jayoti Bansal and Chairman Dr. Gurmeet Singh Dhaliwal for motivating to organize such activities.

Report on: Workshop- Awaken to a new reality: The Art of living session for the Youth

Date of Event: 26th -27th October, 2020

Duration of Event: two days.

Place of Event: Online (Through MS Teams)

Semester: B.Tech 1st and 3rdSem

Number of students participated: 60

Name of Faculty Accompanying: Dr. Nimisha Singh, Assistant Professor, Department of CSE

Name of Contact Person: Mr. Amitesh Marwah, State Youth Coordinator, Art of Living, Punjab

In the 3rd week of SIP 26th & 27th Oct 2020 *Mr. Amitesh Marwah* State youth Coordinator, Art of Living, Punjab, addressed the students on the Topic- Awaken to a New Reality – The Art of Living Session For The Youth. He discusses that keep your mind at peace in all situations. The rest will be taken care of. You have to take at least one step forward, which is to be in peace and stability. The world is filled with love. Everybody has love inside them.

Golden Words

"In today's racing world, the mind tends to get stuck either in the past or the future. But happiness is here and now. You miss the present moment when you are distracted, regretting yesterday, or worried about tomorrow. Yet with practical, self-empowering tools using the breath, we can successfully counter the increasing demands of contemporary life."

How to make your life a work of art

- Make each moment count and live it to the fullest.
- Express yourself and create the life you want.
- Establish an open, accepting and appreciative mindset.
- be who you are and go after what you want.
- Have a solid personal foundation balanced with family, friends, and community relationships.

He is a dynamic personality who inspires people with her deeds. He motivated the students to make the art of living well by expressing yourselves, being open and receptive to new experiences, and

BABA FARID COLLEGE OF ENGG. & TECHNOLOGY

living each moment to the fullest. We need only decide to do so. Students enjoyed the session and interacted with experts by asking queries related to Yoga Kirya, Sudarshan Kirya, and many more.

Mr. Amitesh Marwah interacted live with the attendees during webinar

Report on: Workshop-Know yourself

Date of Event: 20th October, 2020

Duration of Event: 1 Hrs.

Place of Event: Online (Through MS Teams)

Semester: B.Tech 3rdSem

Number of students participated: 45

Name of Faculty Accompanying: Dr. Nimisha Singh, Assistant Professor, Department of CSE

Name of Contact Person: CS Apurva Goyal, Company Secretary & Soft Skill Trainer

Apurva Goyal addressed the students on the Topic- Know Yourself. She worked with the Central Registry Center (Ministry of Corporate Affairs) for 1.5 years in Manesar. She is also a Certified Radio programme production professional (Certificate level) from IIS University, JAIPUR. She discussed with students that the path to success does not look the same for every person. People often tend to make the same mistakes on their paths to success which block the road ahead.

Highlights of Event

- ✔ There are milestones for success that are common on everyone's paths. These milestones let you know you're on to something unique.
- ✔ The Clues to Success Are Right in Front of You: If you feel you've veered off your plan, don't panic! Find out what went wrong and get back on track using these clues for success.
- ✔ Trust Your Intuition: Life is a Journey of Hope.

Apurva Goyal is a dynamic personality who inspires people not by her words but also through her deeds. She motivated the students to take part in all problems in their life and resolve their problems quickly. Life is a Journey of Hope. Students found the session insightful. They also interacted with

BABA FARID COLLEGE OF ENGG. & TECHNOLOGY

our experts and asked questions like how to reduce stress in their life, meditation influence in daily routine life and many more. They were also looking forward to these kinds of activities in the near future.

Report on: Webinar "The Good Beginning is half done"

Date of Event: 19th October, 2020

Duration of Event: 1 Hrs.

Place of Event: Online (Through MS Teams)

Semester: B.Tech 1st and 3rd SEM

Number of students participated: 50

Name of Faculty Accompanying: Dr. Nimisha Singh, Assistant Professor, Department of CSE

Name of Contact Person: Prof. B.D. Sharma, Dy. Director, Career Guidance & Counseling, BFGI.

Name of Resource Person: Dr. Sohan Chandel, Psychologist and Corporate Trainer, Founder NMET Pvt. Ltd

The student induction program was organized by Baba Farid College of Engineering and Technology for the fresher batch of 2020 on Microsoft Teams to bridge the gap between school and college life and to make students familiar with all the departments and facilities available at college as life is a roller coaster ride and stepping in college life after schooling has the same feeling for every student.

On the second week of the Student Induction program Dr. Sohan Chandel, physiologist and corporate trainer, addressed students on the topic; **The Good Beginning is half done**. Dr. Sohan Chandel is a Psychologist and Corporate Trainer, Founder of NMET Pvt. Ltd Dr. Sohan Singh has imparted training to improve the Communication, Interpersonal, Teambuilding and Leadership skills of the employees of 40+ national and multinational and Govt. organizations, for more than 6000 hrs., in the last 10 years, with excellent feedback and improvement in trainee's personal and professional life.

He is a charismatic personality who inspires people not only through his words but also through his deeds. He has cycled on one of the world's deadliest cycling routes, Chandigarh – Manali – Leh – Khardungla (860 km), in 9 days without any support vehicle, alone, to inspire people, suffering from anxiety, stress, depression and negative life. It is named "Nirbhay- The Journey of Hope".

BABA FARID COLLEGE OF ENGG. & TECHNOLOGY

It was a very interactive session because of the friendly, conversational nature of the expert. Students found this session insightful. They also interacted with our experts and asked questions like how to reduce stress in their life, focus on studies, meditation influence their daily routine life and many more. They were also looking forward to these kinds of activities in the future.

Report on: Webinar on "Harmonious life: A change and resilience"

Date of Event: 08 September, 2020

Duration of Event: 1 Hrs.

Place of Event: Online (Through MS Teams)

Semester: B.Tech 3rd SEM

Department: Department of Mechanical Engineering.

Number of students participated: 57

Name of Faculty Accompanying: Dr. Nimisha Singh, Assistant Professor Department of CSE

Name of Contact Person: Prof. B.D. Sharma, Dy. Director, Carrier Guidance & Counseling, BFGI.

It is counterintuitive to suggest that there is harmony in change because change is about disturbing the homeostasis of a situation. How can change and resilience bring harmony? ACME club of the Department of Mechanical Engineering of Baba Farid College of Engineering and Technology, Bathinda, organized a webinar on "Harmonious life: A change and resilience" dated 08 September, 2020 under the leadership of Hon'ble Chairman Dr. Gurmeet Singh Dhaliwal. The event was consented to by renowned and esteemed speaker Prof. B.D. Sharma, Dy. Director, Carrier Guidance & Counseling, BFGI.

He said that only contented people lead Harmonious life. He also added a positive attitude towards the relationships and the individual's attitude. He emphasizes living in the present as the present is only given. He shared valuable points for a harmonious life regarding change and resilience with students and faculty.

Dr. Nimisha Singh moderated the event. Dr. Tejinderpal Singh Sarao gave a vote of thanks. Fifty-seven students of B.Tech 2nd year and 10 faculty and staff members of Baba Farid College of Engineering and Technology attended this.

Webinar Report on Fundamental Duties & the Pandemic: The Challenges for a Responsible Citizen

Date of the Webinar: - August 11, 2020

Organized By: NSS/NCC Unit & Department of Social Welfare, BFCET

No. of Participants: 67

Resource Person: Adv. Seema Sharma (Advocate Mediator, District Courts, Bathinda)

Brief Report:-

Fundamental Duties help promote a sense of discipline and commitment toward the nation. They help realize national goals through citizen's active participation rather than mere spectators. An educational institution's role and responsibility mainly emphasize empowering the faculty to live with the rights of equality, dignity, and religious freedom. NSS/NCC Unit & Department of Social Welfare, Baba Farid College of Engineering and Technology, Bathinda, has organized a webinar on "Fundamental Duties & the Pandemic: The Challenges for a Responsible Citizen".

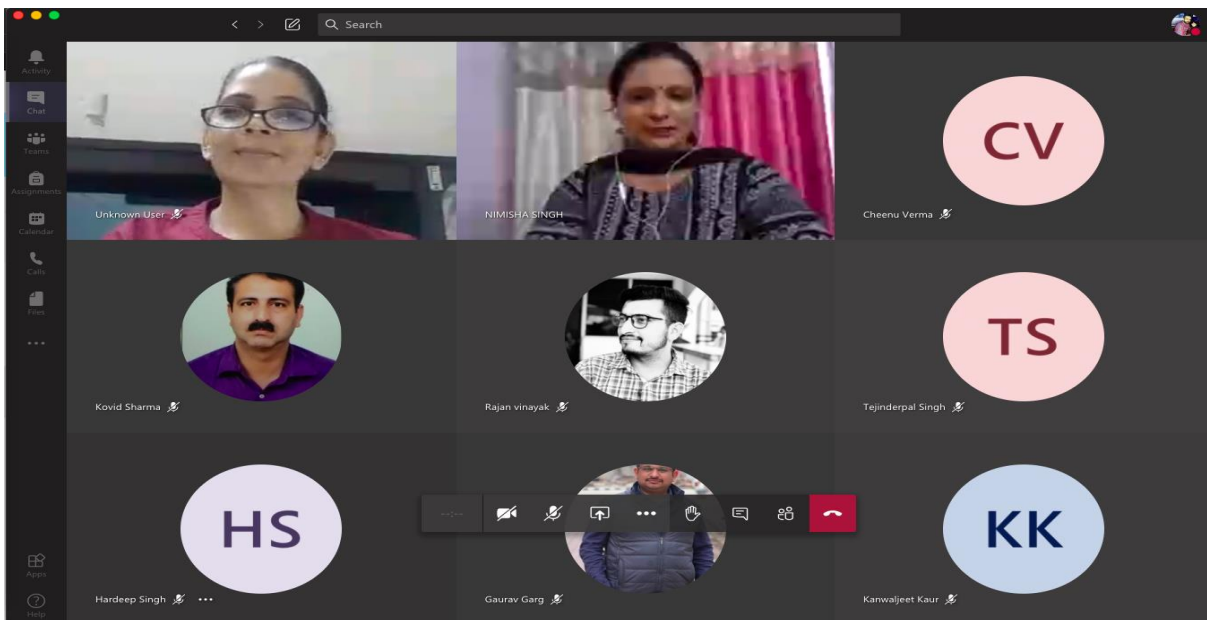

The webinar was consented to by the renowned and esteemed speaker Adv. Seema Sharma (Advocate Mediator, District Courts, and Bathinda). She talked about the significant role played by the Fundamental Rights in the life of any citizen. Some basic rights are well-known as fundamental to human existence and crucial for human expansion. Without fundamental rights, a man's existence would be worthless. These rights include the right to freedom of speech, freedom of expression, the prohibition of discrimination based on caste, creed, color, or sex, equal right to adopt, practice freely, and spread the religion of their choice, etc. As a citizen of a democratic country, we all are privileged to have some fundamental rights. But, apart from these rights, we also have fundamental duties that we rarely discuss. Moreover, responsible citizenship is not just about enjoying fundamental rights and performing the fundamental duties mentioned in our constitution. Still, she added to her words that it is about going beyond those duties. Sixty-seven faculty members joined this webinar.

During the event, **Adv. Seema** abides all the participants with her thoughts and talks. At the end of the session, she said in this challenging time, we may remind ourselves that it is a fundamental

BABA FARID COLLEGE OF ENGG. & TECHNOLOGY

duty of a citizen to promote harmony and the spirit of common brotherhood amongst all the people of India; probably, this is an immediate need of the time. Er. Navjot Singh (Coordinator, NSS/NCC Unit & Department of Social Welfare) thanked the panelist for enlightening all with her words of wisdom and announced that BFCET would try to organize similar webinars in the future also. **Few Golden Words by her** "In such a situation, in my opinion, this is the right time to remind ourselves of the citizen's fundamental duties. The citizens often show serious concern about fundamental rights but then forget the fundamental duties."

Adv. Seema Sharma interacted live with the attendees during webinar

Webinar Report on the Role of Education in Achieving Equity & Communal Harmony

Date of the Webinar: - 11 August, 2020

Organized By: NSS/NCC Unit & Department of Social Welfare, BFCET

No. of Participants: 270

Resource Person: Dr. Punit Kumar Dwivedi (An Academician, Author, Start-up Mentor, and Poet)

Brief Report: -

The growing importance of education equity is based on the premise that an individual's level of education directly correlates to the future quality of life. Therefore, an academic system that practices educational equity is a strong foundation for a fair and thriving society. NSS/NCC Unit & Department of Social Welfare, Baba Farid College of Engineering and Technology, Bathinda, organized a webinar on "*The Role of Education in Achieving Equity & Communal Harmony.*" The main intention of this webinar was to focus on how education plays a pivotal role in communal harmony and national integrity. If people acquire an education, they tend to make informed decisions, which helps avoid conflict in the community and the nation. In addition, educational norms and values of society are passed on from generation to generation. Important information is acquired through both formal education and the hidden curriculum. Good morals are imparted to people while they are still young, thus producing a crime-free and respectful community. Education helps mold and groom individuals to the extent that the individuals will have socially acceptable attributes of life and can mix well with others in the community, thus living harmoniously.

The webinar was consented to by renowned and esteemed speaker *Dr. Punit Kumar Dwivedi* (An Academician, Author, Start-up Mentor, and Poet). He talked about the role of education in communal harmony and national integrity. The ultimate goal of interfaith and peace education is to learn new ways of thinking and acting based on mutual respect and shared responsibility. The whole human community can live in peace and enjoy the fruits of sustainable and equitable development. More than 270 Participants joined this event from different states. E-Certificates have been issued to all the attendees.

Dr. Dwivedi motivated the students to set the aim and principles of life and work hard to achieve the goal. Positive thinking can help a person to have a harmonious life in numerous ways. It leads individuals toward confidence and helps them look for fine things in life. It brings an innovative perspective that can make all the difference in the world. He emphasized that with the help of positive thinking, a student can explore his potential, and their attitude encourages their peers too. During the webinar, he discussed how to have a harmonious life in the corporate and academic world and spirituality in daily life and the organization.

Few Golden Words by Dr. Dwivedi "If people acquire education, they make informed decisions even in terms of their environment and their surroundings. Sustainable use of available resources helps reduce environmental pollution and deforestation and avoid wildlife extinction. Agriculture practices do not damage the environment and the ecosystems are the measures that can be taken by people who have gained some education at some point. Educated people tend to know preventive measures during national disasters and disease outbreaks. People who are unaware of the damage operate in ignorance and as a result, conflicts can arise if things do not go well in the environment in which they live. Education brings about order and harmony in the community." At the end of the session, he answered the questions asked by the participants on sustainable use of resources, how education brings hormones into the community, and the role of education in communal hormones and integrity. Moderator, Dr. Nimisha Singh (Assistant Professor, CSE) conducted the whole webinar gracefully.

The Role of Education in Achieving Equity & Communal Harmony: A Glimpse from the Live Interaction during the Webinar

BFCET organizes webinar on 'The Role of edu in achieving equity & communal harmony'

ANIL VERMA
BATHINDA, AUG 28

The growing importance of education equity is based on the premise that an individual's level of education directly correlates to the future quality of life. Therefore, an academic system that practices educational equity is a strong foundation of a society that is fair and thriving.

NSS/NCC Unit & Department of Social Welfare, Baba Farid College of Engineering and Technology, Bathinda organized a webinar on "The Role of Education in Achieving Equity & Communal Harmony". The webinar was consented by renowned and esteemed speaker Dr. Punit Kumar Dwivedi (An Academician, Author Startup Mentor, Poet). He talked about the role of education in communal harmony and national

integrity. The ultimate goal of inter-faith education and of peace education as well is for us to learn new ways of thinking and acting, based on mutual respect and shared responsibility so that the whole

human community can live in peace and can enjoy the fruits of sustainable and equitable development.

More than 270 Participants had joined this event from different states. E-Certificates have been issued to all the attendees. Dr. Gurmeet Singh Dhaliwal, Chairman, BFGI and Dr. Manish Goyal, Principal, BFCET lauded the efforts of the NSS/NCC unit and Social Welfare department of the institute.

The Role of Education in Achieving Equity & Communal Harmony: Press Coverage of the Webinar

Webinar Report on Importance of Harmonious Life among Believers of Different Faith

Date of the Webinar: - 23 July, 2020

Organized By: NSS/NCC Unit & Department of Social Welfare, BFCET

No. of Participants: 153

Resource Person: Dr. Shankar Goenka (Renowned Author, Coach, TEDx Speaker & Certified Master Trainer)

Brief Report: -

The human mind is conditioned by the social, cultural, economic, and prejudices that an individual has experienced. Thus, balanced and respectful diversity is required for true peace and harmony. Our emotions, feelings, and behaviour must be conditioned in a way best suited to lead a harmonious life. Baba Farid College of Engineering and Technology, Bathinda, has the vision to create ethical and influential corporate leaders. With this vision in mind, NSS/NCC Unit & Department of Social Welfare, BFCET has organized a Webinar on the "Importance of Harmonious Life among Believers of different Faith" on 23 July, 2020. The webinar was consented to by esteemed speaker Dr. Shankar Goenka, a renowned Author, Coach, TEDx Speaker & Certified Master Trainer. Including from 61 students & faculty members of BFCET, 153 attendees from 20 states have attended the webinar online on Microsoft Teams Platform.

Dr. Goenka motivated the students to set the aim and principles of life and work hard to achieve the goal. Positive thinking can help a person to have a harmonious life in numerous ways, which leads toward confidence and helps them look for fine things in their life. It brings an innovative perspective that can make all the difference in the world. He emphasized that with the help of positive thinking, a student can explore his potential and their attitude encourages their peers too. During the webinar, he discussed how to have a harmonious life in the corporate and academic world and spirituality in daily life and the organization.

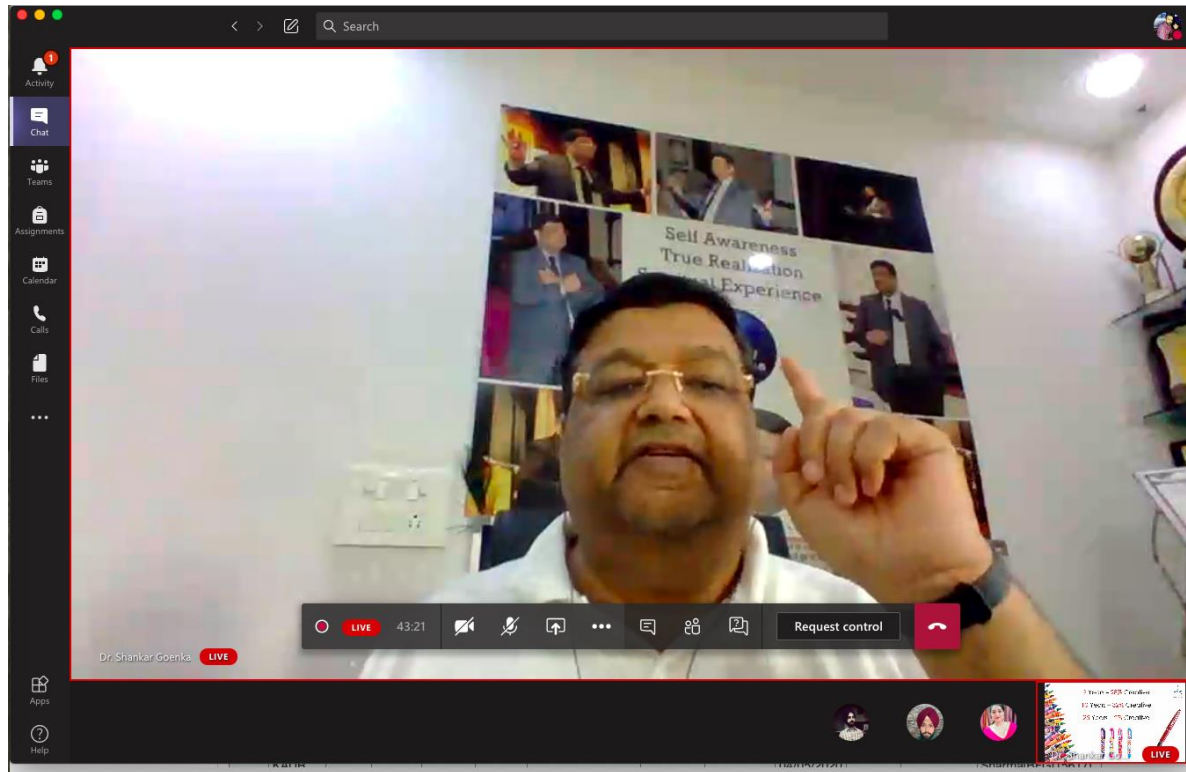

BABA FARID COLLEGE OF ENGG. & TECHNOLOGY

Dr. Goenka abodes all the participants with her thoughts and talks during the event. At the end of the session, he answered the questions asked by the participants on the Importance of Peace and harmony, the impact of positive thinking in life, and how we can purify our thoughts. He also gives tips to ensure a peaceful life. Moderator, Er. Ramandeep Chahal (Assistant Professor, CSE) conducted the whole webinar gracefully. The main focus of the seminar was campaigning for the importance of harmonious life among believers of different faiths and seeking their commitment to promote and ensure interfaith cooperation, understanding and dialogue at this crucial time. ***"Always aim at complete harmony of thought, word and deed. Always aim at purifying your thoughts and everything will be well"***.

A few Golden Words by him Peace and harmony can bring a peaceful and stable order to society, and they are a necessary condition for the survival and development of humanity. A world deprived of peace and harmony certainly will fall apart and return to the jungle era in which the strong prey on the weak." Lastly, he concludes by saying that peace and harmony are needed among people and countries to make this world a better place for everyone to live in. Learn the true meaning of friendship by respecting the values followed in a country and helping them in times of need. Even if we know or do not know someone, giving them a big, hearty smile is enough to grow a lovely relationship with everyone and make their day peaceful and great.

Webinar Report on Importance of Human Values & Professional Ethics

Date of the Webinar: - 14 July 2020

Organized By: NSS/NCC Unit & Department of Social Welfare, BFCET

No. of Participants: 280

Resource Person: Dr. Shankar Goenka (Renowned Author, Coach, TEDx Speaker & Certified Master Trainer)

Brief Report: -

Our values are important because they help us grow, develop, and create the future we want to experience. When we use our values to make decisions, we deliberately focus on what is important to us. Our values inform our thoughts, words, and actions. A student needs to encompass a positive attitude as it helps create better learning opportunities for themselves. Baba Farid College of Engineering and Technology, Bathinda, has the vision to create ethical and influential corporate leaders. With this vision in mind, the NSS/NCC Unit & Department of Social Welfare, BFCET successfully organized National Webinar on "Importance of Human Values & Professional Ethics" on 14 July 2020. The webinar was consented to by renowned and esteemed speaker Dr. Shankar Goenka, a renowned Author, Coach, TEDx Speaker & Certified Master Trainer. Apart from 121 students & faculty members of BFCET, 280 attendees from 22 states have attended the webinar online on Microsoft Teams Platform.

Dr. Goenka motivated the students to set the aim and principles of life and work hard to achieve the goal. Positive thinking can help a person to have a harmonious life in numerous ways. It leads individuals toward confidence and helps them look for fine things in their life. It brings an innovative perspective that can make all the difference in the world. He emphasized that with the help of positive thinking, a student can explore his potential and their attitude encourages their peers too. During the webinar, he discussed how to have a harmonious life in the corporate and academic world and spirituality in daily life and the organization. BABA FARID COLLEGE OF ENGG. & TECHNOLOGY

by the participants on honesty and loyalty, respect for work, punctuality, regularity and discipline, Courtesy and politeness with others, and values that play a prominent role in the lives of individuals. He also gives tips to improve Emotional intelligence. Moderator, Er. Ramandeep Chahal (Assistant Professor, CSE) conducted the whole webinar gracefully. The main intention of this webinar is to focus on Professional ethics have values that manage the attitude of a person or group in a corporate/professional environment. It also provides guidelines on an environment on how a person should act towards other people and institutions.

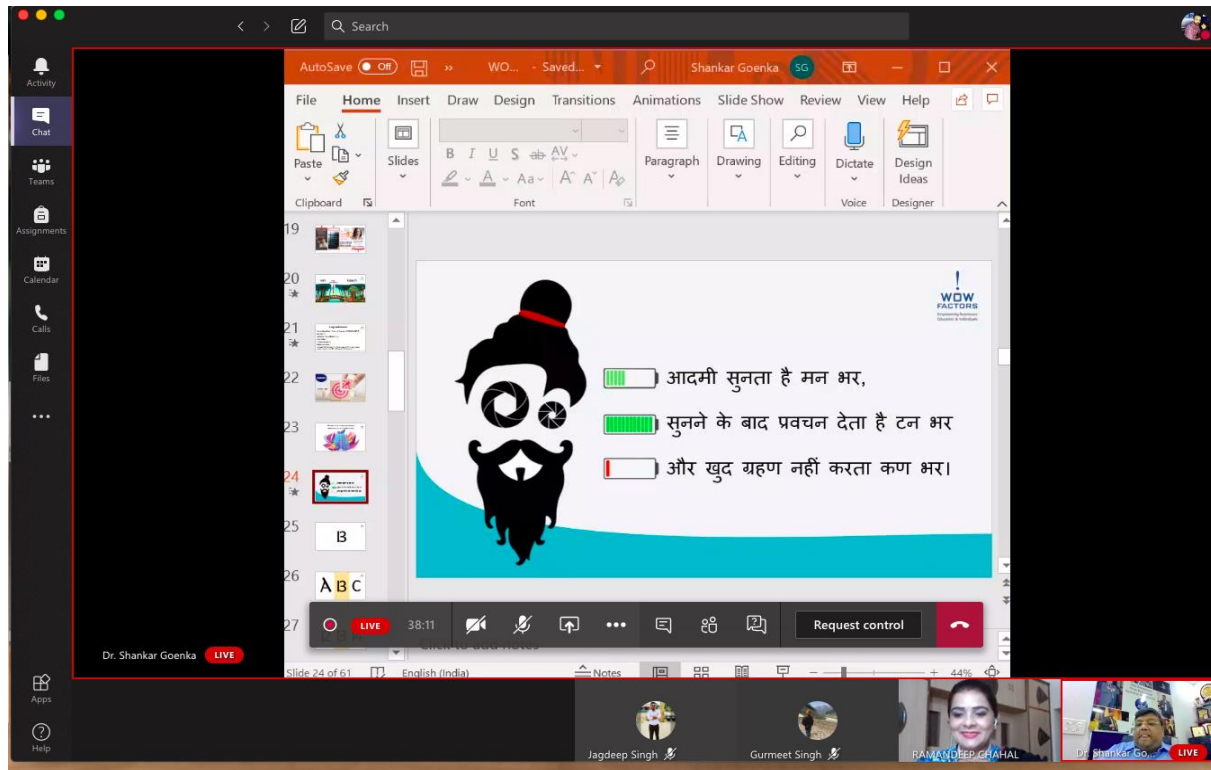

A few Golden Words by Dr. Goenka "Education is clearly about understanding (what to do?), learning skills (how to do?) and practicing the understanding & skills leading to the fulfillment of one's purpose. It is not just about learning skills (how to do?). The subject which deals with "what to do" and "what not to do" is called value education – it facilitates the development of the Right understanding. The subject dealing with "how to do" is called technical education or professional education – it facilitates skills development."

Reports-2019-20

Report on: Visit to Takht Sri Damdama Sahib Gurdwara, Bathinda

Name of Activity: Visit to Takht Sri Damdama Sahib Gurdwara, Bathinda

Date of Execution: 27 February, 2020

Department (Branch): 4th and 6th SEM, Computer Science Engineering

Number of students participated: 46

Brief Report:

Department of Computer Science & Engineering organized a one-day Recreational trip on Thursday, 27 February 2020, at Takht Sri Damdama Sahib, Talwandi Sabo, Bathinda, under the unit of NSS and Social Welfare Society. The Recreational trip was attended by 46 students. The recreational trip has importance on student's life specifically in three aspects- physical health, mental health and improving quality of life. The trip includes various activities such as cleaning the Gurdwara sahib and making the langar to feed the needy. The objective of the trip is to promote the quote "Simple Living and High Thinking".

Takht Sri Damdama Sahib is one of the 5 Takhts in Sikhism. Takhts, also called Seats of Temporal Authority, are religious places that hold significant importance in the Sikh religion. The one in discussion is where the tenth Sikh Guru, Guru Gobind Singh Ji, assembled and instituted the Holy Book of Sikhs, Guru Granth Sahib Ji. The book is the only thing that the Sikhs worship. Not a person, picture, or any statue, just Guru Granth Sahib Ji, the Holy Book, which is the compilation of the hymns, teaching, and preaching of the Sikh Gurus and others.

Sri Damdama Sahib was recognized as the 4th Takht of Sikhism in November of 1966 by the Shiromani Gurdwara Prabandhak Committee and the 5th Takht of Sikhism by the Government of India in April, 1999. Guru Gobind Singh Ji wanted to make this place a literary hub and read and wrote a lot during his stay in 1706, which lasted nearly a year. He wanted to make a literary pool at this place so that no Sikh would remain illiterate.

BABA FARID COLLEGE OF ENGG. & TECHNOLOGY

All Students spent a long time here, visiting everything and chatting with many believers. The architectural view of the building is wonderful. Damdama means a breathing place. Guru Gobind Singh stayed here after Sikhs fought many battles and moved to Talwandi Sabo after a victorious battle at Muktsar.

The guru's precious and sacred articles - the sword, a mirror, a 'pothi' or book, a matchlock- have been preserved at the Gurdwara. These relics attract innumerable visitors from across the world to the Damdama Sahib. One of our students, a devotee, said, "I come here every day and especially during exams, because here I get peace of mind. All the wishes of the people get fulfilled here."

After visiting the Langar, Students entered the temple complex. Shoes or socks are prohibited in the complex, and men and women must cover their hair. Everyone must dip their feet into the water before entering the temple complex; not sure if this is for cleanliness or some ritual purification. After spending 2 to 3 hours in such a holy place, all students returned to the college bus.

Report on: Annual Cultural Hostel Night of Girls

Date of Activity: - 26th April, 2019

Brief Report:-

Cultural Department, Baba Farid Group of Institutions organized a hostel night on 26th April, 2019, for students of the Girls' hostel. The Hostel Night added many expressions of gratitude, advice, and reminiscence of joyous moments spent in the college, filling the students' hearts.

This year the hostel night was planned in a very unique and memorable way. Following this, the function was conducted in Main Seminar Hall, BFGI and all started planning a month.

The dress code for Star Night was 'BLACK QUEENS.' The celebration started at 8:30 PM with the welcome speech by Miss Kamaldeep Kaur Khaira, in which Hostlers were formally welcomed by the Baba Farid Group of Institutions family, which also included the introduction of the chief guests for the night was Dr. Gurmeet Singh Dhaliwal, Chairman, Baba Farid Group of Institutions and Mrs. Paramjeet Kaur Dhaliwal, Director Admin, Baba Farid Group of Institutions.

After introducing the guests, a few events like singing and dancing were done to entertain the fresher. Everyone enjoyed a DJ party and a finger-licking dinner. Students from Nepal & Mizoram showed their cultural dance. After the Star Night contest, many exciting and tricky games were played to pep up the environment. In games, along with the students, hostel members also participated. Other tags like Best Dressed, Most Talented, Best Personality and Best Dancer were also awarded. Jaspreet Brar was awarded the title.

Dr. Gurmeet Singh Dhaliwal also addressed the newcomers. "In our college, we believe in inspiring minds, improving their intellectual capacity and building characters that our students will treasure for their lifetime. Additionally, we endeavor to teach social values and principles of personal excellence and care for others. I am certain you would find these four years the most precious time of your life. I hereby wish you all a pleased and academically fulfilling journey ahead and an outstanding stay in the college".

Report on: Annual Cultural Hostel Night of Boys' Hostel

Date of the activity: - 23rd April, 2019

Brief Report:-

Cultural Department, Baba Farid Group of Institutions organized a hostel night on 23rd April, 2019 for the boys' hostel students. The Hostel Night added lots of expressions of gratitude, advice, and reminiscence of joyous moments spent in the college, which filled the hearts of the students.

The Hostel Night admitted the kind presence of Dr. Gurmeet Singh Dhaliwal, (Chairman- Baba Farid Group of Institutions), Mrs. Paramjeet Kaur Dhaliwal, Managing Director of Baba Farid group of Institutions & Mr. Amitoz Singh Dhaliwal, Director Admin, Baba Farid Group of Institutions, Bathinda was also present in this party. The lamp Lighting Ceremony was done by respected chief guests.

Students of various years presented entertaining group dance, solo dance, and solo song performances. Many students of various years participated in 'STAR BOY', which was judged by Mr. Amitoz Singh Dhaliwal & Mr. Talwinder Singh. The contest had three rounds- talent round, Question-Answer session & Personality Introduction.

Mr. Gagandeep Singh was awarded the title of 'Star Boy'. Some exciting games were also arranged for the B. Tech final year students like a musical chair race, Balloon blowing etc. and were enjoyed by all.

Another thrilling performance was given by the third and fourth-year students together, emphasizing college life. The students in the main seminar hall presented many performances & Skits.

Dr. Gurmeet Singh Dhaliwal awarded students for their achievements over the years and their various accomplishments in almost all curricular and extracurricular activities. The programme concluded with a Dinner organized for the students, hostel staff and all the chief guests in a mess. The day was great, filled with nostalgia, fun and excitement.

Students and Hon`ble Chairman Dr. Gurmeet Singh Dhaliwal inaugurated the hostel night

Report on: An Awareness Seminar on Children and Senior Citizens' Rights

Date of the Activity: - 2nd April, 2019

Resource Person: - S. Gurpreet Singh Bhullar, IPS

Event Coordinator: - Er. Chinu Verma, AP, CSE, BFCET

Brief Report: -

The government of India enacts very effective provisions for wellbeing and maintenance of senior citizens and children. The constitution makes it obligatory for all adults and heirs to serve the wellbeing and caretaking facilities of senior citizens and children by giving them a monthly allowance or fulfilling their basic requirements. The act also gives a simple, speedy and non-expensive mechanism for protecting the life and property of younger and older persons.

Baba Farid College of Engineering and Technology conducted an awareness seminar based on Children and Senior Citizens' Rights to make students aware of the legal provisions provided by our respective constitution and how they can have a secure future by avoiding inconveniences due to lack of knowledge in this field. S. Gurpreet Singh Bhullar, IPS, Punjab Police, was invited to address the audience on the topic.

He informed the audience that the Maintenance and Welfare of Parents and Senior Citizens Act (2007) guarantees better future conditions for parents sent away by their heirs as soon after receiving their share from the will signed by the parents. Now, the condition has changed. Children will have to take care of their parents even after getting a share from the will by providing a monthly allowance to the parents.

Parents earn for their children during their whole life. But, when caring for them, people or their heirs tend to run away from their responsibilities. Resultantly, many parents lose their mental balance and wander here and there in search of the acceptance, love, and care they expect from their heirs.

Moreover, this act would ensure our upcoming generations to have acceptance by their children and heirs. No citizen can refuse to abide by this rule as all the citizens are liable for punishment in case of breaching this rule," said S. Bhullar, the respective speaker. Other Faculty members and Students took part in the event enthusiastically. Refreshments were also distributed to the students by the faculty members.

S. Bhullar is sharing his views and telling about the various rights of children and Senior citizens

Report on: A Lecture on Environmental Ethics and Human Values

Date of the Activity: - 18th March, 2019

Resource Person: - Er. Navjot Singh Brar, Coordinator, NCC/NSS, BFCET

Brief Report: -

To lead a peaceful life, we have some responsibilities to fulfill in the environment. Every citizen should take this initiative to care for the environment and surroundings.

A seminar on the "**Importance of Environmental Ethics and Human Values**" by BFCET was organized to inculcate values among students to maintain their environment, encourage them to step forward, and participate in campaigns that help us maintain a good environment. Speakers offered suggestions and shared their views on preserving nature at its best. Students, too, participated in the same enthusiastically.

While speaking on the importance of a green environment for human beings, Mr. Navjot Singh said, "We should plant more and more trees to help our nature preserve a better climate balance. We should keep our society clean and green by reducing the use of pesticides and insecticides and recycling renewable resources.

Also, we should reduce the use of plastic bags as they are not degradable and try to use more and more renewable resources. As plastic is non-renewable and does not degrade quickly even in centuries, it also increases the temperature level in the environment. He emphasized Green surroundings and explained how greenery around us enhances our blood circulation in the body, which further implies the better performance of actions. He further talked about how green surroundings help in concentration on things. The greenery around us increases our competence in problem-solving, said Mr. Brar.

Faculty members and students there swore to keep our environment clean and work further for a better environment. They, too, promised not to use plastic bags and other products related to plastic. They would make us aware others about the harmful effects of plastic on our

health like it increases the chances of Cancer in our body. Many students and Faculty Members participated with great enthusiasm in the event. Refreshments were also distributed to the participants.

Report on: A Seminar on Freedom of Expression

Date of the Activity: - 7th February, 2019

Resource Person: - Mr. R. K .Bhandari, CEO, Bhandari Engineering Company, Bathinda

Event Coordinator: - Er. Ramneek Singh, Dy. Dean, Student Welfare and Activities, BFCET

Brief Report: -

Freedom of expression is a significant aspect of democracy as it provides open space for discussion and debates, proper observation of different aspects and viewpoints, negotiations and adjustments necessary for civil policy decision-making. Efforts to curb nonviolent and peaceful protests, far from maintaining law and peace, can allow unforeseen problems to get worse on the scene and erupt in far more dangerous forms.

A guest lecture on "**The Importance of Freedom of Expression** "was organized by BFCET. Mr. R.K. Bhandari, CEO of Bhandari Engineering Company, Bathinda, graced the event as the keynote speaker for the awareness of students to make use of methods to express their disagreement with any law or policy enacted by the authorities of the country. Using our Freedom of Expression Right given to all citizens by our constitution, we can question the authorities' ignorance of any vital portion of the society and hold them responsible for future policy makings or amendments to the present policies.

"Freedom of Expression as our fundamental right helps us in the overall development of our nation as accessible criticism makes the authorities responsible for taking actions to improve the standard of living of citizens. In addition, it helps individuals to know the viewpoints of others and use their talent to accomplish difficult tasks.

In the present scenario, when social media has entered all walks of life, freedom of expression serves as an important voice for the common people that they use to question the concerned people about specific phenomena," said Mr. Bhandari, the guest speaker. He further explained how we could show our disagreement peacefully with any policies violating our constitution's fundamental policy-making norms. He demonstrated various strategies and methods used by

BABA FARID COLLEGE OF ENGG. & TECHNOLOGY

people to show our disagreement without violating any norms of the constitution.

Following that, the other teachers discussed their views with the students. Students also participated in the same enthusiastically. Students presented their views in front of the delegates.

Er. Ramneek Singh, Dy. Dean, Student Welfare and Activities, BFCET, proposed a formal vote of thanks to the guest speaker.

Mr. Bhandari is sharing his views with the students

Report on an Awareness Seminar on Drug Abuse- Effects and Consequences

Date of the Activity: - 9th January, 2019

Resource Person: - Mr. Jaswinder Singh, Head, Sports Department, BFGI

Event Coordinator: - Mr. Prakash Singh, DPE, BFCET

Brief Report: -

Baba Farid College of Engineering and Technology has hosted an awareness seminar on "Drug Abuse – Effects and Consequences" to make students understand the ill effects caused by drugs and their severe outcomes. The event was successful, with 130 students present from various Baba Farid College of Engineering and Technology departments.

The seminar was organised on 9th January, 2019 under the supervision of Mr. Prakash Singh, DPE, Baba Farid College of Engineering and Technology. This awareness seminar was addressed by the expert speaker, Mr. Jaswinder Singh, Head of Sports Department, Baba Farid Group of Institutions.

The seminar was so knowledgeable and organised very interestingly by the expert that all the students pledged to prevent themselves from becoming the victims of Drugs. The seminar proceedings took place as follows: The seminar was initiated by the expert speaker with a presentation on the ill-effects of drugs especially on the youth and stressed that drug and alcohol abuse among students are significant barriers to their achievements and attaining success in their life. This was followed by the speaker saying that the purpose of the seminar was not just to give a lecture but emphasize more on the real- world issues and consequences.

The topics in the seminar were related to the causes of Drug Abuse, its dangerous consequences and overcoming addiction among the youth. The speaker also presented various live examples of people cured of drug addiction transforming their lives. After presenting the causes, effects and consequences of drug abuse and addiction, the speaker ended the seminar by discussing the various ways of preventing drug abuse among the students, followed by students pledging to stay away from drugs and their addiction to lead a happy life. After the presentations, the event was open for discussions where the students actively participated with enthusiasm and discussed their personal views on the solutions for the issues related

BABA FARID COLLEGE OF ENGG. & TECHNOLOGY

to drug abuse.

All their views were acknowledged by the speaker. Then, there was an interactive session where the students raised their queries, which the speaker answered efficiently.

Overall, the seminar was successful as it was very much stimulating and informative, with incredible responses from the students and their active participation. Mr. Prakash Singh proposed a formal vote of thanks.

Report on: Book Exhibition Related to Books of Different Communities

Date of the Event: - 6th November, 2018

Brief Report:-

Books, it is said, are the quietest and most true friends. So when one can go to a place where books are abundant, can they be missed? Definitely, not possible, if there is a Book Exhibition in your college, it is one event that cannot be missed.

Book Exhibitions give the learners access to a wide variety and range of books with many good deals. They are also a place to meet people of similar interest, indulge in meaningful conversation, and discover new books and authors. They are also a place for cultural exchange, to explore books from different languages, regions, and foreign cultures. Sometimes there is even a chance when you can interact with your favorite author!

Keeping the same idea in mind, Baba Farid College of Engineering and Technology (Mukatsar Road, Bathinda) organized the Book Exhibition under the able guidance of Er. Manish Goyal (Deputy Director Academics). Many people visited the exhibition to get a hand on their favorite books. Though books are available across the state and country, a Book Exhibition enables the mingling of cultures and brings about unison and harmony in society. A Book Exhibition is always an attraction for book lovers across the globe.

This Book Exhibition was held in the year 2018. It was a time of happiness and festivity, with the smell of books all around the air. With the different religious stalls, students and other visitors went through the sensitization regarding cultural harmony at the Book Exhibition.

Thousands of students visited this exhibition. There was no entrance fee. Concessions were also given to the learners. Publishers offered attractive discounts on books during this period to attract book lovers and to enhance sales of their publications related to different cultures. Seminars and

BABA FARID COLLEGE OF ENGG. & TECHNOLOGY

Symposiums were held occasionally to discuss ways and mean to improve book publishing and the utility aspect of Book Exhibitions.

A remarkable aspect of the exhibition was those young and older people, including children, who enthusiastically visited stalls and purchased books of their choice. A good amount of books were sold during this time which proved the event's success and aim of bringing respect among the learners for various cultures, and their prosperity was achieved.

Report on: A Seminar on Economic Rights

Date of the Activity: - 26th October, 2018

Resource Person: - Mr. Amit Bansal, Senior Manager (Accounts), BFGI

Event Coordinator: - Er. Charandeep Singh Bedi, AP, CSE, BFCET

Brief Report: -

The right to work, to have an adequate Standard of Living, including food, clothing, and shelter, the right to mental and physical health, the right to social security, the right to live in a healthy environment, and the right to education are some of the basic fundamental rights provided to all Indian citizens through our respective constitution. Generally, these are known as Economic rights too. Baba Farid College of Engineering and Technology organized "**A Seminar on Economic Rights**" to enlighten students and other sections of society about these free rights given to us by our constitution. Mr. Amit Bansal, Senior Manager (Accounts), BFGI, honored the event as the guest speaker. Using these rights, we all have the right to education at any age, irrespective of caste, color, or gender. "Equal employment opportunity is one of the Economic rights with the help of which we can choose our preferable professions according to our free will and earn our livelihood. Nobody is allowed to interfere in the selection of our profession.

Also, we can have the desired kind of house in the country wherever we want to fulfill the requirements. We can choose our professions and workplaces freely according to our preferences.

Moreover, our constitution allows us to have a standard of living of our choice. We are not required to take prior permission from any authority to raise our standard of living to our desired levels," said the speaker, Mr. Amit Kumar Bansal.

Similarly, we are not liable to ask anybody what kind of food we should eat and what kind of house we should live in. We can make these choices freely because our constitution approves of these economic rights to us.

BABA FARID COLLEGE OF ENGG. & TECHNOLOGY

Other faculty members and students also participated in the event and shared their views. Er. Charandeep Singh Bedi, an event coordinator, proposed a formal vote of thanks to the guest speaker.

Students are getting information about their economic Rights

Report on: A Seminar on Importance of Professional Ethics for Teachers

Date of the Activity: - 10th October, 2018

Resource Person: - Er. Manish Goyal, Assistant Director Academics, BFGI

Event Coordinator: - Er. Pushpinder Sharma, AP, ECE, BFCET

Brief Report: -

In this globalization and competitive world, we are witnessing various changes in our educational system. Since change is inevitable, the aims and objectives of education are changing according to the needs, interests and requirements of the learners, society and the nation as a whole. The concept of teaching is changing day by day. A teacher in this contemporary era has many duties and responsibilities to play. Apart from having good academic and professional qualifications, they should also possess professional ethics knowledge.

Keeping this in mind, an awareness seminar was organized on 10th October, 2018 for the institute's teachers to train them about professional ethics and duties. Er. Manish Goyal commenced the session with his views regarding the importance of professional ethics

Er. Goyal said that Professional ethics are like guidelines, which facilitate the teacher to provide quality education and inculcate good values among the learners. Professional ethics will enlighten the teachers that they have a significant role in bringing desirable changes in the student's behavior. It also helps the teachers to understand their profession as a teacher. Their role is not just to become supreme and authoritarian in front of their students and colleagues. But then, they have a broader and more meaningful role to play. Teachers having a sense of professional ethics will treat their learners with love, care, affection and commitment

He further elaborated, " To set a positive example, teachers must follow an ethical code of conduct to show professionalism. Those ethics ensure that these educational guides remain unbiased while doing their job and fulfilling their objective of providing uncompromising education. Professional ethics determine their responsibilities towards the students." As a part of ethics, teachers cannot exhibit favoritism towards any particular student or even discriminate against any of them. They ought to interact with the pupils appropriately.

Last but not least, he said that teachers could be regarded as a guiding light as they play an

BABA FARID COLLEGE OF ENGG. & TECHNOLOGY

essential role in shaping the lives of many individuals. They are strong role models and need rational behavior toward the students. Following professional ethics will help teachers be impartial in their field and do the job honestly and professionally.

The teachers appreciated Er. Manish Goyal for his valuable thoughts. The session ended on a positive note. Teachers said that they felt motivated by the words of Er. Goyal. In the end, Er. Pushpinder Sharma, the event coordinator, proposed a vote of thanks to him on behalf of all the faculty members for giving valuable information to them.

Er. Manish Goyal is discussing his views with the audience

Report on: Seminar on Unity in Diversity

Date of Activity: - 10th September, 2018

Brief Report:-

Unity in diversity is used to express harmony and unity between dissimilar individuals or groups. It is a concept of "unity without uniformity and diversity without fragmentation" that shifts focus from unity based on a mere tolerance of physical, cultural, linguistic, social, religious, political, ideological and psychological differences towards a more complex unity based on the understanding that difference enriches human interaction.

The culture of an institute determines its profitability, student's and all the members' happiness and even how likely staff are to injure themselves at work. Discover three core areas that every senior leader needs to keep in balance to create a positive workplace safety culture.

Everyone knows, at some level, that educational performance arises from the human dynamic - without it, the educational goal cannot be achieved. With it, success or, if the dynamic is negative, failure occurs. So what does culture consist of that can be directly measured?

To get the answer to this and spread it among the students and to generate a peaceful environment with cultural harmony, Baba Farid College of Engineering and Technology organized a seminar on 10th September, 2018. The seminar's main focus was campaigning for the importance of harmonious life among believers of different faiths and seeking their commitment to promote and ensure interfaith cooperation and understanding. Shri B. D. Sharma Ji, Deputy Director of Activities, BFGI, was the chief guest of the seminar. Er. Amandeep Singh welcomed the chief guest and all the participants.

He said that in his point of view, in the present scenario, terrorism is a burning issue of the world and we can only tackle terrorism by promoting inter-faith harmony, mutual understanding, and religious tolerance and inter-religious dialogue. He further emphasized the crucial need for dialogue among different faiths and religions to enhance mutual understanding,

BABA FARID COLLEGE OF ENGG. & TECHNOLOGY

harmony and cooperation.

We should learn to live together in mutual trust and peace. While addressing during the seminar, he emphasized at all forums that we should promote the educational programmes on interfaith harmony & peace in schools, colleges, universities, the general public, and religious leaders. He added that Islam and Christianity share several teachings that are enough for a harmonious co-existence, and peace can only prevail where people from different communities and cultures live together without harming each other.

Shri B. D. Sharma Ji, Deputy Director of Activities, BFGI during the seminar

Report on: Inter College Competition of Poster Making on Cultural Harmony

Date of Activity: - 28th August, 2018

Brief Report:-

Cultural harmony connects people of different backgrounds regarding social behavior, religion, knowledge, language, etc. and teaches us to accept the moral-cultural behavioral ways of others. This is the idea of a positive change.

They might be different a matter of fact, they are mainly contrasting, but the solution to any confrontation is through cultural harmony. It promotes peace and understanding between two races – the only way to live in a unified way despite being different. Globalization and cultural harmony have opened new dimensions for democracy. The exchange of ideas and art forms enriches people individually, a nation, and even internationally. It brings progressiveness of thought and ideas. It exposes the evils and drawbacks of a particular culture and helps to open minds about it.

Keep the idea in mind, the Poster Making Competition was held to bring cultural harmony by **Baba Farid College of Engineering and Technology (Mukatsar Road, Bathinda)** with a lot of enthusiasm and zeal under the guidance of respected Principal Sir, Dr T.P.S. Sarao. Circulars regarding voluntary donations and activities were given to children in advance. A poster-making competition was held on 28th August 2018. The themes for the poster-making were:

1. Stories of Cultural Unity and Harmony
2. People who have contributed towards cultural harmony
3. Celebrating festivals together
4. Proud to be an Indian
5. Education and Cultural Harmony
6. Global Peace and Harmony

Previously students list was given by all the departments. Around 40 students from all the

BABA FARID COLLEGE OF ENGG. & TECHNOLOGY

departments took part in the poster making competition. All selected students participated in earnestly in the competition. They came up with amazing creativity. Their efforts and initiative were appreciated by one and all. The external source made the final judgment, a faculty member from the Mechanical Department, **Baba Farid College of Engineering and Technology (Mukatsar Road, Bathinda)**. The rubrics for judgment were: Originality, Clarity of expression, Uniqueness, and Close to the Theme.

The students also decorated the display boards with the messages of peace and harmony, universal brotherhood, the significance of the flag, the cultural harmony week, and information about the National Foundation for Cultural Harmony and its noble mission. Students spoke on national integration and cultural harmony during the activity. The students were encouraged to read the holy books of different religions. On Flag Day, a particular program was organized. Flags were distributed. They sang songs that highlighted the qualities of unity, togetherness, and love. Scriptures from different religious holy books like The Gita, The Koran, The Bible, The Guru Granth Sahib and teachings from Jainism and Buddhism were read by children. The theme was brotherhood, peace, and harmony. A thought-provoking and heartfelt message was given by respected Principal Sir. The whole college took the pledge for Cultural Harmony. For the whole day, the atmosphere in the college resonated with feelings of love for the country and its people.

Activity Competition Report on Annual Cultural Girls' Hostel Night

Date of the Activity: - 3rd April, 2018

Brief Report:-

Cultural Department, Baba Farid Group of Institutions organized a girls' hostel night on 3rd April, 2018 for students of girls' hostel. The Hostel Night added many expressions of gratitude, bits of advice, and reminiscences of joyous moments spent in the college, filling the students' hearts.

The Hostel Night admitted the kind presence of Dr. Gurmeet Singh Dhaliwal, Chairman of Baba Farid Group of Institutions and Mrs. Paramjeet Kaur Dhaliwal, Director Admin, Baba Farid Group of Institutions, as chief guests of the night. Er. Jyoti Bansal, Vice-principal Baba Farid College of Institutions, was also at the party. Respected authorities did Lamp Lighting Ceremony.

Students of various years presented entertaining group dance, solo dance, and solo song performances. Many students of various years participated in 'STAR GIRL,' which Mr. Talwinder Singh & Miss Amandeep Kaur judged. The contest had three rounds- talent round, Question-Answer & Personality introduction.

Ms. Supriya Goyal was awarded the title of 'Star Girl.' Some exciting games were also arranged for the B. Tech final year students, like musical chairs, Balloon blowing, etc. and were enjoyed by all.

Another thrilling performance was given by Giddha & Bhangra Group together, reminiscing the college life. Nepali songs were up & Skits were performed by the students in the main seminar hall.

Dr. Gurmeet Singh Dhaliwal, Chairman of Baba Farid Group of Institutions, awarded the students for their achievements over the years, and their various accomplishments in almost all curricular and extracurricular activities. The program concluded with a dinner organized for the students and hostel staff in a mess. The day was great, filled with nostalgia, fun, and excitement.

Report on: Annual Cultural Hostel Night of Boys

Event Date: - 2nd April, 2018

Brief Report:-

Cultural Department, Baba Farid Group of Institutions organized a hostel night on 2nd April, 2018 for the boys' hostel students. The Hostel Night added many expressions of gratitude, advice, and reminiscence of joyous moments spent in the college, filling the students' hearts.

This year the hostel night was planned in a very unique and memorable way. Following this, the function was conducted in Main Seminar Hall, BFGI and all started to plan a month.

The dress code for Fresher's Day was 'WHITE DEVILS' for Fresher students. The celebration started at 8:30 pm with the welcome speech by Mr. Lakhveer Singh, Warden, Boys Hostel, in which hostlers were formally welcomed into the Baba Farid Group of Institutions family, which also included the remarkable presence of the chief guest, Dr. Gurmeet Singh Dhaliwal, Baba Farid Group of Institutions.

After introducing the guest, a few events like singing and dancing occurred to entertain the fresher students. Along with these, a DJ party began and all enjoyed a finger-licking lunch. The show's energetic and enthusiastic emcees were second-year Engineering students. The program was kick-started with performances of many participants who were elegantly dressed and ready to perform.

After the Fresher contests, many exciting and tricky games were played to pep up the environment. In games, along with the students, hostel members also participated. Other tags like Best Dressed, Most Talented, Best Personality, and Best Dancer were also awarded.

Dr. Gurmeet Singh Dhaliwal also addressed the newcomers. "In our college, we believe in inspiring minds, improving their intellectual capacity and building characters that our students will treasure for their lifetime. Additionally, we endeavor to teach social values and principles of personal excellence and care for others. I am confident that you would find these four

years the most precious time of your life. I hereby wish you all a joyful and academically fulfilling journey ahead and an outstanding stay in the college”.

Activity Completion Report on “A Seminar on Democratic Rights”

Date of the Activity: - 28th March, 2018

Resource Person: - S. Sardool Singh Grewal

Brief Report: -

Democratic rights exercised by people make a nation a Democracy. Equal participation of all citizens in political matters is a very important feature of Democratic countries like India. So, it becomes essential for all administrative bodies to consider public opinion while they make policies. Constitution guarantees equal participation of all citizens in politics by providing them voting rights which people exercise to elect their favorite politicians.

Treading in the same direction, Baba Farid College of Engineering and Technology conducted an awareness seminar on **Democratic Rights and Values** whereby various management authorities took part and shared their views about the importance of Democratic rights and how we can utilize them. S. Sardool Singh Grewal was the guest speaker. He said, “We are free to support and elect any political leader or party during the election without any pressure according to our free will. Our elected ministers constitute the government, further making policies for our well-being and taking the GDP level to new heights.

The right to Equality, Right to Freedom, Right against Exploitation, Right to Freedom of Religion, Cultural and Educational Rights, and Constitutional Remedies are the Democratic rights allocated to all citizens of India. Democratic rights like voting rights are very important for people like us in India. These rights are of utmost importance since we choose our favorite and capable candidates through the polling system who represent our needs and problems before other parliament ministers ask for policymaking to solve those crises. Using our Democratic rights, we can choose our religion, access law when needed, provide education at our desired institutes, etc.”

BABA FARID COLLEGE OF ENGG. & TECHNOLOGY

At the event's closing, other speakers discussed Democratic rights in light of the Indian Constitution. The faculty also conducted a quiz contest on Democratic Rights and values

BABA FARID COLLEGE OF ENGG. & TECHNOLOGY

members. All the participants presented their views and shared their experiences. Also, the Winner students were given appreciation prizes by the respective guest.

All the learners attended to the speakers very curiously. Er. Jayoti Bansal, Vice-Principal, BFCET, proposed a formal vote of thanks to the guest speaker.

Activity Completion Report on a Seminar on Legal Rights

Date of the Activity: - 22nd February, 2018

Resource Person: - Prof. (Dr.) P. S. Romana, Regional Centre Bathinda (Punjabi University Patiala)

Brief Report: -

The Constitution of India ensures the welfare of all citizens in the country. The obligatory acts make it a compulsion for all citizens to obey all the policies and laws to ensure societal peace. We have been provided with a variety of legal rights through our Constitution. The acts also provide simple, speedy and non-expensive mechanisms for protecting life and property.

An **Awareness Seminar on Legal Rights** was organized by Baba Farid College of Engineering and Technology to make students responsible for abiding by all the laws carefully as responsible citizens. Guest delegates were invited to occasion a lecture on the same theme. Prof. (Dr.) P.S. Romana, Regional Centre Bathinda (Punjabi University Patiala), was the keynote speaker.

“Indian Constitution provides so many laws to the general public to protect their rights. But, due to a lack of awareness, many people do not know of them. Hence, they experience many hardships in their routine life. So, as educated human beings, we should take the responsibility to make people aware of the rights they are unaware of. He further cited examples of people’s rights: Any Police officer can’t refuse to lodge an FIR, and if they do so, they could be jailed for up to 6 months to 1 year. Next, according to the Indian Motor Vehicle Act, wearing a helmet is necessary for two-wheeler riders. This act limits only two riders on bikes. This law also says that if any traffic police officer snatches the keys from any vehicle, it is illegal. We have the full right to lodge a Legal proceeding against the concerned officer,” said Prof. (Dr.) P.S. Romana, the speaker. In addition, he talked about various other laws enacted by our Constitution to maintain a safe and secure environment in which everyone can lead a tension-free and happy life.

BABA FARID COLLEGE OF ENGG. & TECHNOLOGY

The faculty members also conducted an awareness quiz contest on the same theme at the end of the event. All partakers expressed their viewpoints and shared their experiences too. Also, the Winner students were given appreciation prizes by the respective guest.

All the students listened to the speakers very attentively. Dr. T.P.S. Sarao, Principal, BFCET proposed a formal vote of thanks.

Report on: A street play performed on the topic “Ekta Mein hi Bal Hai”

Date of the Activity: - 20th February, 2018

Brief Report:-

Cultural diversity supports the idea that every person can make a unique and positive contribution to the larger society because of, rather than despite, their differences. Imagine a place where diversity is recognized and respected; various cultural ideas are acknowledged and valued; contributions from all groups are encouraged; people are empowered to achieve their full potential; and differences are celebrated.

“Diversity is the one true thing we have in common.

Celebrate it every day.”

To build the same environment, a group of student cultural activists performed a streetplay at Baba Farid College of Engineering and Technology to promote communal harmony.

The play took place on 20th February, 2018, highlighted India as a great nation with its multi-religious heritage. People follow different religions, but live in harmony. Do not destroy the unity and integrity of the nation, the play stressed.

The Nukkad Natak (street play), Ekta Mein Hi Bal Hai (Union is Strength) was performed by six college student activists. The group pointed out that the freedom of India was won with the united efforts of men and women who belonged to different religions, cultures and languages. Today that hard won freedom is being destroyed by some politicians and fundamentalists who polarize people based on their religious identity, to promote only the majority religion, said Vishavjeet Singh, who led the team.

BABA FARID COLLEGE OF ENGG. & TECHNOLOGY

The students pledged to uphold India's religious diversity and harmony, celebrate the festivals of different religions, and respect each other's religion to build a strong India.

The show was put up on a college campus. Prem Kumar, an engineering student, said he now understands how people's minds are poisoned by fundamentalists who are out to destroy our nation. "I would keep away from such people."

All the participants and the audience took a deep interest in it, and the aim of organizing this street play seemed to be successful when the response by everyone gained. A pleasant and patriotic environment was observed and the college awarded all the participants. They were encouraged to continue their efforts for society's welfare and create a peaceful and prosperous nation.

Mr. Amitoz Singh Dhaliwal (Executive Director of Baba Farid Group of Institutions) said he would welcome other programs to educate the students to become nation builders.

Activity Completion Report on a Lecture on Environmental Ethics and Human Values

Date of the Activity: - 23rd January, 2018

Resource Person: - Dr. Balwinder Singh Brar, AP, BFCET

Brief Report: -

We can live more peacefully in the environment by fulfilling some responsibilities. Every citizen should come forward to take this initiative to care for the environment surrounding them. Baba Farid College of Engineering & Technology, Bathinda organized a seminar on 23rd January, 2018 to make students aware of the **Importance of Environmental ethics and Human values** so that these values can be inculcated in them to become social person and inspire them to come forward and participate in campaigns that help us to maintain a good environment. Speakers offered suggestions and shared their views on preserving nature at its best. Students, too, participated in the same enthusiastically.

Dr. Balwinder Singh Brar, an Associate Professor of BFCET, shared his experiences while speaking on the importance of a green environment for human beings. “We should plant more and more trees to help our nature preserve a better climate balance. We should keep our society clean and green by reducing the use of pesticides and insecticides and recycling renewable resources.

Also, we should minimize plastic bags as they are not degradable and try to use more and more renewable resources. As plastic is non-renewable and does not degrade quickly even in centuries, it also increases the temperature level in the environment. He emphasized Green surroundings and explained how greenery around us enhances our blood circulation in the body, which further implies the better performance of actions,” said our guest speaker. He further talked about how green surroundings help in concentration on things. Dr. Balwinder Singh Brar says the greenery around us increases our competence in problem-solving.

Faculty members and students present there took an oath to keep our environment clean and further

BABA FARID COLLEGE OF ENGG. & TECHNOLOGY

work for a better environment. They, too, promised not to use plastic bags and other products related to plastic. They would make us aware others about the harmful effects of plastic on our health like it increases the chances of Cancer in our body. The students shared their views regarding the same issue. Many students and Faculty Members participated with full zeal in the same.

Activity Completion Report on a Sensitization Seminar on Different Gender Categories

Date of the Activity: - 27th October, 2017

Resource Person: - Dr. Pardeep Kaura, Deputy Director (Academics), BFGI

Brief Report: -

Proper treatment of people of all sexual orientations worldwide has become imperative for all countries. Many severities are experienced by multitudes around the globe every day due to their sexual orientation. Due to their conventional social and cultural set-up, this problem has been taking more severe shape in developing countries. Every individual should treat the sexes other than his own with due respect and regard.

Baba Farid College of Engineering & Technology, Bathinda, followed the same and organized “**A Sensitization Seminar on Different Gender Categories**” on 27th October, 2017 to develop this value system among all students to make them sensitive to people of different sexual orientations. Dr. Pardeep Kaura, Deputy Director (Academics) Baba Farid Group of Institutions, shared his experiences while speaking on the need for proper treatment for people suffering from such discrimination in our society. He said, “Only a sensible person can understand the difficulties experienced by those marginalized persons only because of their sexual preferences and help them receive their due respect. These people face much discrimination throughout the day. But, when solving their problems, society tends to ignore their complaints by calling them asocial or unnatural due to the unawareness of their rights.

So, it becomes imperative to inspire students to collaborate with individuals irrespective of their sexual preferences to create a harmonious relationship between all sexes. It helps students to develop that equal attitude towards all sexes to avoid any future clash with their companions based on their sex,” said the speaker.

BABA FARID COLLEGE OF ENGG. & TECHNOLOGY

Many Faculty members and students shared their views on how we can contribute to maintaining a harmonious relationship between people of all sexes. Students also participated in the same enthusiastically. They took advantage of the seminar completely.

BABA FARID COLLEGE OF ENGG. & TECHNOLOGY

All faculty members and students present there took an oath to treat their social counterparts with due respect and regard. Dr. T.P.S. Sarao, Principal, BFCET proposed a formal vote of thanks.

Activity Completion Report on Quiz Competition on the Birth Anniversary of Sheikh Baba Farid Ji

Date of Event: 22-09-2017

Number of Students participated: 48

Brief Report:

Plethora of events are organized every year by BFCET on the birth anniversary of the great Sufi saint of the 12th century, Baba Sheikh Farid Ji. Baba Farid College of Engineering and Technology organized quiz Competition on the occasion of Aagman Purab of Baba Sheikh Farid Ji to enlighten the incredible views of Baba Sheikh Farid Ji on 22nd September, 2017.

The event began with religious ceremonies at the main seminar hall of BFGI. Students and faculty members in large numbers were present on this occasion. Important dignitaries like Dr. Gurmeet Singh Dhaliwal, Chairman, BFGI, Mr. B.D. Sharma, Deputy Director Activities BFGI, and Dr. Pardeep Kaura, Deputy Director Academics, presided over the auspicious occasion with their presence.

The principal BFCET, TPS Sarao, delivered a welcome speech to the dignitaries and complimented all the participants who were present there on the Aagman Purab of Baba Sheikh Farid Ji. He also added that every person should take inspiration from Baba Farid Ji's philanthropic teachings and work for the welfare of humanity.

A band of students associated with Mr. Mohit Garg, Assistant Professor from the Department of Music, Baba Farid College, graced the occasion with their Sufi performance and folk music. Along with that, a poster-making competition was also conducted. Then, students presented their speeches on Baba Sheikh Farid Ji. Aish Monga, a student of CSE, BFCET, delivered a beautiful poem based on the life of Baba Farid Ji. Abhilash Motan, another student of CSE, BFCET, presented translated (steek) shaloks of Baba Farid Ji from Guru Granth Sahib Ji:

“Farid returns thou good for evil; in thy heart bear no revenge. Thus thy body will be free of maladies, and the life has all blessings.”

“Sweet are candy, sugar, honey, and buffalo's milk. Yea, sweet are these but sweeter by far is

BABA FARID COLLEGE OF ENGG. & TECHNOLOGY

God.”

A quiz competition, the day’s main event based on Baba Sheikh Farid ji’s life and teachings, followed the melodious and soothing translation. Around 48 students from all colleges of the BFGI campus participated in this quiz, based explicitly on the life of Baba Farid Ji. Quiz was a thoughts provoking challenge to all the students. The quiz turns began from class to department level, followed by college level. Five teams from each college made to the Finals, having four students each. The quiz consisted of six rounds. Each round was a mixed bag with questions about different phases of the saint’s life. The first round was conducted to be aware of Baba Sheikh Farid Ji’s life. Then, it was followed by the Audio round, visual round, sports round, current affairs round, and rapid-fire questions round.

The quiz served as food for thought and was enlightening for the participants and the audience. The entire life and teachings of Baba Sheikh Farid Ji were covered in questions. The students showed their rhapsodic spirit and enjoyed the quiz to the fullest. We should organize this type of competition to enhance curiosity among learners. Based on their performance in the quiz competition, students of BFCET got first position, students of BFCMT got 2nd position, and BFCET students got 3rd position.

The quiz was organized in a very common way by Er. Ramneek Singh and Er. Amandeep Singh, Assistant Professors of BFCET and Scoreboard, Audio-Visual and Timekeeping were looked at by student coordinators. The teams participated full of zeal and curiosity. They proficiently answered the questions asked. Though some of the questions tended to confuse them, the teams analyzed and answered them critically and confidently. The questions put forth to the teams were intriguing and exciting. The audience applauded when the teams got their answers correct. Questions were passed onto the audience in case of wrong answers by the teams.

All the students and faculty members enjoyed themselves a great deal. Afterward, the stage coordinator invited the Chairman BFGI, Dr. Gurmeet Singh Dhaliwal, to share his valuable thoughts and views. While addressing the audience, he said, “Though he was Muslim, but he held the same status and respect among Hindus as well. It won’t be wrong to call Farid Ji the first poet of the Punjabi language. Sheikh Farid emphasized meditation and love of One God, and wants us always to remember and obey him. He believes that one has no right to live if one does not pray.

BABA FARID COLLEGE OF ENGG. & TECHNOLOGY

At the end of the event, the winners of the Quiz competition and other participants were honored and praised by the Hon'ble Chairman, BFGI. Activity Completion Report on a Seminar on the Right to Education

Date of the Activity: - 15th September, 2017

Resource Person: - Mr. B.D. Sharma, Deputy Director of Activities, BFGI

Brief Report: -

The Right to Education Act is an Act of the Parliament of India that describes the importance of education for every citizen of India under Article 21A of the Indian Constitution. India became one of those 135 nations to make education a fundamental right of every child.

Department of Computer Science Engineering of Baba Farid College of Engineering and Technology organized a Seminar on the “Right to Education” on 15th September, 2017 to make people aware students about their fundamental right to receive education in India as compulsory without any discrimination based on caste, religion, color, etc. A guest lecture was conducted for the same. Mr. B.D. Sharma, Deputy Director of Activities, Baba Farid Group of Institutions, was the guest speaker for the event.

Mr. Sharma expressed his views on the importance of this fundamental right of Indian citizens, saying, “Everyone has the right to education. Education should be free, at least in children’s elementary and fundamental stages. Elementary education should be compulsory and directed to fully develop human personality and strengthen respect for human rights and fundamental freedoms. Education should promote understanding, tolerance, and friendship among racial or religious groups.”

This right makes education a fundamental right of every child in India. The act also ensures that no child shall be held back, expelled, or required to pass a board examination until the completion of their elementary education. There is also a provision for special training of school drop-outs to bring them up to par with students of the same age. The right was brought to ensure that all walks of society, children and their parents in particular, have access to education and are

supported in basic knowledge of child health and nutrition, hygiene and environmental sanitation and the prevention of accidents,” said the speaker. After that, the faculty members expressed their viewpoints regarding the act, the Right to Education and its need and importance in India.

Students also participated in the event. They presented their views in front of the delegates. They took advantage of the seminar completely. Er. Sunil Kumar Nagpal, Head, CSE, proposed a formal vote of thanks.
