REPORT

ON

CAREER GUIDANCE AND COUNSELING

SESSION (2020-2021)

Name of Activity: Career opportunities for Engineering graduates

Date of Activity: July 2nd, 2020

No. of Students: 35

Name of resource person: Mr Rajinder Gupta (Vice chairman Punjab state planning board),

Dr Gurmeet singh Dhaliwal (Chairman Baba Farid Group of Institutions),
Sh. B. D. Sharma (Director Career Guidance & Counseling)

Activity Coordinator: Ms Simran Sekhon

Baba Farid College of Engineering And Technology organized a career counseling session for students of Engineering on 2nd July 2020. Career decisions play a pivotal role in shaping the future growth and development of students. In today's environment of multiple options, knowing about choices available helps children in their decision-making process.

Opening page of the Webinar

Contents of the Webinar

The session commenced with the Chairman Dr Gurmeet Singh Dhaliwal (Baba Farid Group of Institutions), Mr Rajinder Gupta (Vice Chairman Punjab state planning board), Sh. B. D. Sharma (Director Career Guidance & Counseling) reiterating the importance of knowing one's potential and subject of interest before making a decision. He emphasized on the importance of making informed decisions. An educational consultancy which draws upon vast experience and research,

to offer comprehensive services regarding decision making for the future. The session aimed at making the audience aware of the multiple career options available. They also shared information regarding leading universities and various courses available. They guided the students to identify their interests and what they are good at. The session was informative and enriching.

BABA FARID COLLEGE OF ENGINEERING AND TECHNOLOGY

BATHINDA

Session 2020-21

Report on

Preparation for Competitive Examination

Date of Webinar: 19th October 2020.

Program: Civil Engineering

No. of Students participated: 30

Name of Resource Person: Er. Nipun Syal, Director EDUZPHERE.

Department of Civil Engineering, Baba Farid College of Engineering and Technology organized an online technical session on “Preparation for competition examination” to Civil Engineering in association with Eduzphere through School of Competitive Studies. The motive to run this session was to educate the students so that they could get familiar with the types of questions that can be asked by the interviewer or competitive exams and having a proper understanding, and providing them with some useful tips and tricks to crack the competitive exams. Er. Nipun Syal, Director EDUZPHERE, Bathinda delivered these technical sessions through their Eduzphere app. The main objective of the webinar was to prepare students for Technical competitive examinations in civil engineering domain PPSC, GATE, Govt. exams, ESE.

It was a Joint Venture between BFCET & Eduzphere (Renowned Coaching center of Punjab). Eduzphere is already working with many educational institutions and giving their services. As BFCET always strives for academic excellence and provides numerous opportunities to the students thus this venture was proposed. One month technical sessions on Geotechnical engineering course was delivered by Eduzphere on Eduzphere APP. In these technical sessions they discussed in detail about the above mentioned course. He detailed about methods of earthwork & soil testing which plays a vital role in stability and life of structure. It is an engineer’s responsibility to implement the specified standards and testing codes along with the skills and techniques for adopting the best engineering practices, to meet the emerging needs of soil engineering activities in the engineering environment.

He started by giving a brief introduction about Geotechnical Engineering concepts. In the continuation, the speaker first defined the term Soil which is derived from the Latin word **Solum**. He stated that Soils are complex mixtures of minerals, water, air, organic matter, and countless organisms that are the decaying remains of once-living things. It forms at the surface of land – it is the “skin of the earth.” Soil is capable of supporting plant life and is vital to life on earth. Further he added about types of soils and their respective practices in the construction industry. He also illustrated major engineering properties of soil in brief like Permeability, Satiability, compaction, compressibility, plasticity of soil, capillary rise in soil and many more. He shared his experiences working in soil engineering and soil mechanics.

In addition to the above, Er. Nipun discussed the significance of soil testing which is very essential for civil engineers. He talked about how crucial it is to study and test the soil which is going to bear structural load throughout the design life without failure. He briefed a few soil testing procedures and told how these tests would help the designer to design and analyze the foundation of structure especially for road and railway projects. He also shared the precautionary measures while testing. In the end he also explained Geocell for slope stabilization and erosion control measures.

Preparation for Competitive Examination

mass. $\frac{1}{V}$ of air

Air content \therefore ratio of vol (voids to the volume of voids)

$$a_c = \frac{V_a}{V_v}$$
$$V_a = V_v - V_w$$

EDUZPHERE

The image shows a man in a red shirt looking at a whiteboard. The whiteboard contains handwritten notes in red ink. At the top left, it says 'mass. $\frac{1}{V}$ of air'. Below that, 'Air content \therefore ratio of vol (voids to the volume of voids)'. A box contains the formula $a_c = \frac{V_a}{V_v}$. Another box contains $V_a = V_v - V_w$. To the right, there is a small diagram of a soil sample with a vertical axis labeled V_a , V_w , and V_v . Below the diagram, it says $V_a = V_v - V_w$. The logo 'EDUZPHERE' is visible in the top right corner of the whiteboard area.

Online session on soil Mechanics.

Coeff of Permeability \therefore

Methods \therefore

- 1) Laboratory Methods
- 1) Constant Head Permeability test
- 2) Falling Head Permeability test

The image shows a man in a purple shirt looking at a whiteboard. The whiteboard contains handwritten notes in red ink. At the top, it says 'Coeff of Permeability \therefore '. Below that, 'Methods \therefore '. There are three numbered items: '1) Laboratory Methods', '1) Constant Head Permeability test', and '2) Falling Head Permeability test'. The man is wearing glasses and has a beard. The background shows a green plant.

Online session is in process

BABA FARID COLLEGE OF ENGINEERING AND TECHNOLOGY, BATHINDA

CAREER GUIDANCE AND COUNSELING

SESSION (2020-2021)

Name of Activity: Webinar on Career opportunities for Engineering students

Date of Activity: 12 July 2020

Name of resource person: Dr Anil D Sahasrabudhe (Chairman AICTE)

Number of participants: 72

BFCET organized a Webinar on Career opportunities for Engineering students. Dr. Anil D Sahasrabudhe (Chairman AICTE) was the keynote speaker. DSW, BFCET welcomed the speakers.

Dr. Anil D Sahasrabudhe guided the students to identify their inner self i.e. interests and abilities. He told the importance of knowing one's potential. He took it for granted that students must have chosen their program in line with their aptitude and interests. The media is now flooded with advertisements of the best universities and campuses and the crash courses of various programs. This sometimes puts a dilemma in their minds for where they can get best career counseling to achieve their career goals

Dr. Anil wished that students must have a goal and dedication to achieve it. For this they would need to focus themselves on the goal because if they are distracted from their objective they would see only obstacles. He also narrated the story of Arjun's hitting eye of the sparrow. He also shared information about various programs available for them. He mentioned Robotics, IOT, Networking, Automation, Cloud Computing, Infrastructure industry, Electrical and Embedded Engineering and many more branches of Engineering which have tremendous potential.

Dr Anil emphasized on constant focused interaction between the students and a counselor especially teachers to bring about the most desirable results over time. interaction should be as frequently as possible and at all levels of development. If the right approach is not taken early in a College life, then later, it becomes quite difficult to establish effective lines of communication.

Dr Anil mentioned that Engineering and technology has a significant role in the upsurge of innovation. With a million students coming forward to pursue this degree, the Engineering domain has expanded manifolds. As of now, numerous programs are being offered for every vertical of work under Engineering, with different streams and Programs. All those students who have completed their

intermediate or are about to do the same, they encounter a lot of challenges in selecting the right one. With plenty of options, picking the exact one can prove to be a herculean task. So, we are here to help you while you are struggling to fish out the best possible option. Everyone looks for an institution that has an unbeatable placement record, best infrastructure, highly qualified faculty and unparalleled academic record in the region. Having a clear idea in mind on what one wants to do, surely helps in easy decision making. But if you have doubts in mind, the right advice can prove to be a great help.

Dr Anil emphasized upon Research work. He told Research is a part of everyday life and should be employed effectively when making bigger and important decisions. Consider all options and then try to set your mind on the best one available. To spare you the hassle of going through reports and various pages online, Dr Anil asked to compare B. Tech courses and Colleges in India that encompass voluminous scope, career opportunities and promise a brighter future.

The programme concluded with Vote of Thanks to the Guests and the dignitaries by Principal BFCET.

BABA FARID COLLEGE OF ENGINEERING & TECHNOLOGY, BATHINDA

Report

Name of Activity: Webinar on “How to overcome fear of facing new Challenges”

Date of Activity: 12 July 2020

Name of resource person: BD Sharma

Number of participants: 28

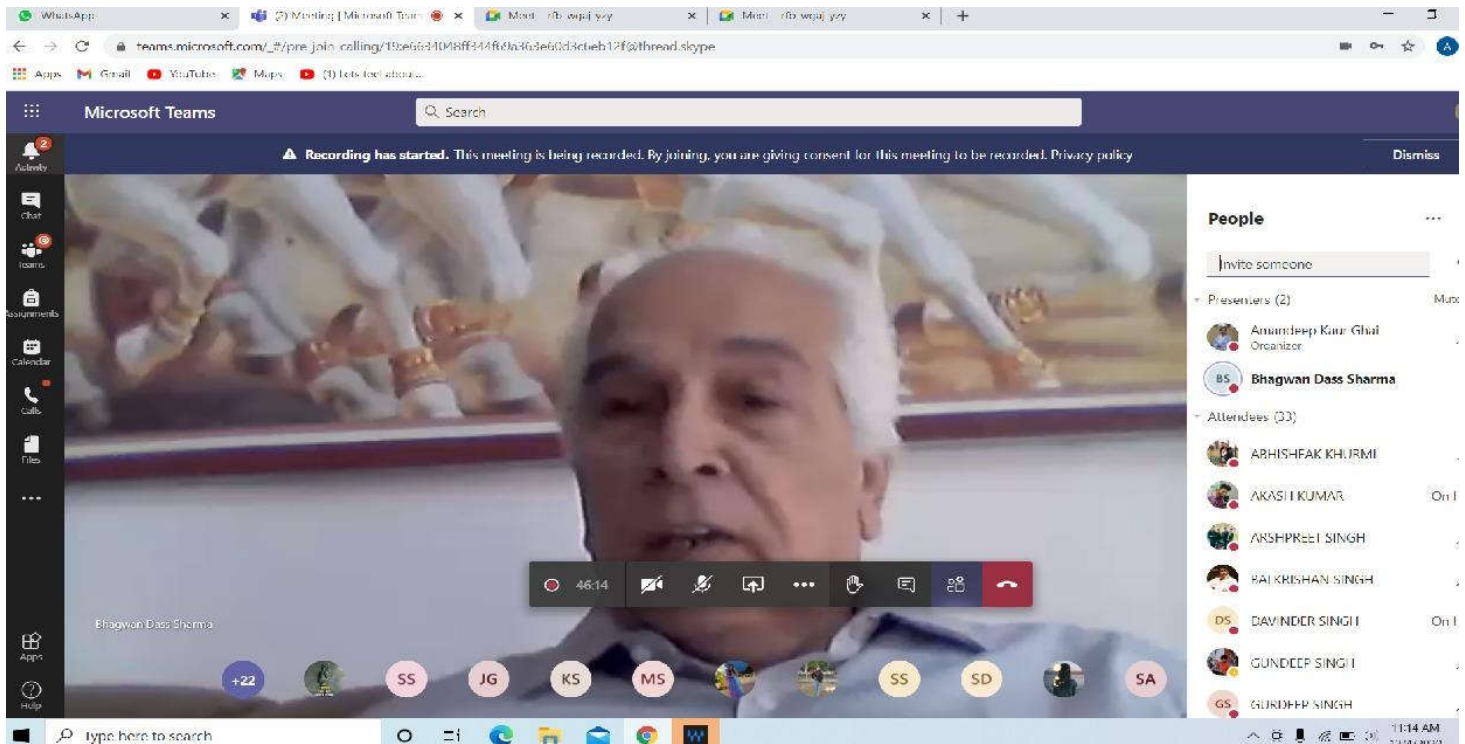

Baba Farid College of Engineering & Technology organized a Webinar Department of Computer Science and Engineering organized an expert talk on “**How To Overcome fear of facing new Challenges**” on 12 July, 2020 10.30 am The event was coordinated by Er.Amandeep kaur, Assistant Professor, Department of Computer Science and Engineering.

This talk was organized to know about the fears facing by all in new challenges. Prof. B D Sharma (Dy Director Career Guidance & Counselling ,BFGI) B D Sharma started his talk by emphasis on Fear of the unknown is normal. But bear in mind there is always something good in new experiences, changes and challenges. They put you out of your comfort zone. And when you're out of your comfort zone, you stretch your capabilities beyond your limit. You never know what you can do until you try. It's actually an opportunity for you to gain better personal qualities.to reduce your fear, make necessary preparation as much as possible. Find out more about the challenge; what kind of environment you'll be in, what skills or tools needed. Learn about them thoroughly. Then be prepared. Equip yourself physically, mentally, and emotionally. Practice wherever you can. Even just by visualization. Though the fear is still there, you'll feel more confident when you are well prepared.

He said what you think becomes your reality. Train your mind to think positively. This will take both time and practice. It begins with mental awareness. You can practice awareness through mindfulness techniques and meditation. When you get good at acknowledging your thoughts and letting them pass, you can stop negative thoughts in their tracks.He said **Don't Give Up** When a challenge arises, be it a big test in school or an upcoming running race, don't give up! Persistence is a huge key to overcome challenges.

This talk gave a brief overview of the Problems faced by us to start new things . It was a great experience for students. A feedback was taken from the students regarding the talk. All the students thanked the authorities for arranging the talk. It was a great learning experience for them as they got a new tips and tricks to achieve the goal of life.
